**Hossein Kiaei
Minister of Foreign Affairs of the
Republic of Takistan**

Your Excellency,

The Ministry of Foreign Affairs of the Republic of Chernarus has decided, decreed on the twenty-fifth of October twenty-twenty one, to call back our Ambassador from your home country, and effective immediately suspend all diplomatic ties with your country.

We do so with a heavy heart, but in light of recent provocations against our national sovereignty, safety and security, we feel this is the only option that we have left on the table at this point in time.

We will maintain the suspension of our diplomatic missions in Takistan on an indefinite basis, until we see a clear effort by your leadership in maintaining national peace and tranquility. So far, that has not been the case.

The Government of the Republic of Chernarus reserves the right to undertake any further response in the clear pursuit of regional peace and prosperity. We will not, under any circumstances, rule out one possible response over the other, and we are not to be held liable for any response that we may undertake. Liability lies solely at the hands of you and your leadership.

Please accept, Excellency, the assurances of my highest consideration.

**Lev Vorobev,
Minister of Foreign Affairs of the
Republic of Chernarus**
